

98POINT6® APP GIVES EMPLOYEES ON-DEMAND VIRTUAL CARE 24/7

At Portico Benefit Services, we're here to help you connect eligible staff to reliable, high quality health care any time they need it. Although annual wellness exams and sometimes certain symptoms and conditions warrant an in-person appointment, the convenience and accessibility of virtual care has made it possible to give your staff exceptional on-demand primary care through the text-based [98point6 mobile app](#) for \$0 or \$5 (depending on health benefit option) per visit.

Did you know that according to the [Centers for Disease Control and Prevention \(CDC\)](#), our annual [flu season](#) actually peaks between December and February but can last well into May? Couple flu season with the

recent uptick in COVID-19 activity, and that means there's still ample time for waves of staff to request time off to care for themselves or their loved ones.

This is a great time to get staff familiar with the 98point6 app, to keep them out of overwhelmed health care facilities yet still get them the convenient care they need to stay healthy and able to work. Through 98point6's secure in-app messaging system, U.S. board-certified physicians can easily:

- Respond to medical questions and concerns
- Diagnose and treat acute and chronic illnesses
- Provide a treatment plan
- Order prescriptions or lab tests

It's simple: Staff just [download the app](#), create a profile and when needed, schedule a visit*.

**For eligible employees and dependents ages one and older covered under the ELCA Health Plan.*
